

GENERAL CARPENTRY 15" SAW

15" • 10 tpi Item #10-2315
Replacement blade #01-2315

Interchangeable blade

01-2315	01-5460
Gen. Carpentry Saw 15" 10 tpi	Heavy Duty Pruning Saw 15" 8 tpi
01-2318	
Gen. Carpentry Saw 18" 8 tpi	

This is absolutely the best saw for dimensional lumber, thick plywood wallboard, and treated lumber of all sizes. It easily and smoothly carves through PVC and ABS pipes up to 10" in diameter. Because it's a pull-to-cut saw, undercuts (from the bottom up) are a snap.

Recommended For: All types of dimensional lumber, large treated lumber, posts, all types of landscape lumber, PVC and ABS pipes, plywood and wallboard 5/8" and thicker.

Special SharkSaw® Features:

- **Pull-To-Cut:** The SharkSaw® blade cuts when drawn toward you. This results in a more natural, smoother, straighter, and less fatiguing sawing operation—due in part to SharkSaw's thinner blade.
- **Raker Tooth:** This special tooth cleans the sawdust out of the kerf as the blade is pushed forward.
- **Diamond-Ground:** SharkSaw® blades are precision diamond-ground to sharpen each tooth on three sides. The resulting blades are extremely sharp.
- **Impulse Hardening:** SharkSaw's teeth are electrically hardened to improve longevity. In fact, they hold their edge two to three times longer than conventional blades.
- **Soft & Comfortable Handle:** Industrial strength handle features rubber-like elastomer double-injection, non-slip grips, for long-lasting comfort.
- **Replaceable Blade:** Twist-lock design allows for fast, easy replacement of worn blades.
