Landscape Saw	Sportsmen's Saw
7-1/2" 12 tpi	7-1/2" 9 tpi

The Landscape folding saw is so versatile that it cuts lumber, PVC and ABS plumbing pipes, electrical conduit, plywood, molding, and other materials quickly and effortlessly. Its 15-tpi blade is made from the finest Japanese high-carbon spring steel and will produce very smooth and easy cuts. The teeth are triple diamond-ground and hardened for durability and smooth, fast cutting. This saw's unique handle locks at three positions, including an extra-wide angle, to enable cuts as difficult as flush-to-floor or flush-to-wall, without finger scrapes. The angle is also exceptionally comfortable for bottom-up cuts. The grip is a soft elastomer for comfort and control. This saw is so compact that it easily fits into most tool bags.

**Recommended For:** Lumber, PVC and ABS plumbing pipes, electrical conduit, plywood, molding.

### Special SharkSaw® Features:

- **Pull-To-Cut:** The SharkSaw® blade cuts when drawn toward you. This results in a more natural, smoother, straighter, and less fatiguing sawing operation—due in part to SharkSaw's thinner blade.
- **Raker Tooth:** This special tooth cleans the sawdust out of the kerf as the blade is pushed forward.
- **Diamond-Ground:** SharkSaw® blades are precision diamond-ground to sharpen each tooth on three sides. The resulting blades are extremely sharp.
- **Impulse Hardening:** SharkSaw's teeth are electrically hardened to improve longevity. In fact, they hold their edge two to three times longer than conventional blades.
- **Soft & Comfortable Handle:** Industrial strength handle features rubber-like elastomer double-injection, non-slip grips, for long-lasting comfort.
- **Replaceable Blade:** Twist-lock design allows for fast, easy replacement of worn blades.
